- Overall: Meaning of the Past
  - A Caring Community – does not matter who you are
  - A past example of how to continue
  - Our Church cares about our Core Value of Justice by helping the poor and other forms of Outreach
  - We dig deeper into our own faith, our own lives, the lives of others
  - Sense of community to do things together
  - The liturgy is the source of our life as a parish. It gives us the strength to do what we do.
- Trends:
  - We are stable with registered persons & households, though avg. weekly mass attendance is down.
  - Mass attendance is going down everywhere.
  - There is a disengagement of young adults.
  - A concern is the decline in PSR participation.
  - Confirmation numbers show a decline as well.
- As you look to the future, what are your 2-3 highest hopes for living our mission and core values as fully as possible?
  - Group 1
    - Increase Faith Community
      - Being able to draw others into our parish through ministries, missions, and programs
      - Having a space that can support that mission that is large enough and equipped to host events (i.e. - Mother's Day Brunch, Easter dinner, etc.)
    - Increase Social Footprint
      - Social services offered to support each other and others (i.e. -Health needs, economic and social needs – more inclusive)
      - Dignity - Being inclusive and respecting the diversity and gifts that many of us offer. Respect all.
    - Spiritual Development
      - Each of us investing in ourselves and our faith community to have growth through participation.

- Group 3

  - Increased awareness of our parish through branding and self-promotion of parish – others don't know the good we do or programs we offer
- Group 4
  - Build full and active participation of each of our members by promoting and communicating the gifts of our parish community
  - Take our faith & values into the community through service and evangelization – “Living our faith and letting others notice”
  - Expand the Food Pantry to provide emergency food more frequently than every 90 days
  - Provide a hot meal for the community – not just those poor, but maybe lonely
  - Reverse the trend of the decline in the PSR participation
  - Engage the youth, their families & young adults in their faith formation, liturgy, and special events
  - Develop new ministries that fill spiritual needs of parishioners not currently being served and better promote those that presently exist
- Overall: Hopes
  - Increase involvement/participation
  - Self-promotion – “Tell the Good News”
  - Have more people share in what we have
  - Have a sense of Hope and not act out of a sense of Fear – take some risks that lead us to Hope for continuing our wonderful worship and community
  - Get out there and keep trying things
  - Discern and cultivate “Superstar” program(s), but not lose the diversity of what we do
  - We all have different needs and gifts and we should cultivate that

Council year: 2017-2018

- Improved access to food pantry
- Updated kitchen
- Roof / HVAC / operational (i.e. – electrical) issues that provide a distraction to what we are trying to accomplish as our mission
- Overall thoughts:
  - Something needs to be done about the Kitchen and Food Pantry due to all the conversations about the ministries using it
  - Repairs need to be made (HVAC / roof / electrical) and the costs need to be considered
  - There's a question of needs versus wants – more solutions for what are our wants and our needs and how do those intercept
  - Question of how we use our meeting space and to determine how much and the flexibility of its use
  - Redesign our footprint to accommodate our needs
  - We need to look at what we are doing and how to improve that and it shows through what we came up with as our ideas.
  - We still really value flexibility and practicality. We do not need a structure/room that can be used for only one purpose.
  - There are repairs that need to be made and will have to be made before we can consider what other things we need to do.
  - We don't want to put a Band-Aid on the HVAC/roof/electrical and then soon after determine that we need to do a bigger project. The timeline of what we need to do versus how long we can discuss and decide what we want.
  - Perhaps a risk assessment needs to happen on the repairs/renovation.
  - A next step can be a new representative building design committee that can make a decision quickly and can assess approvals and fundraising.
- Closing Prayer
